### Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

### Example:

START → Applicant Details → Data Validation → Data Preprocessing → Load ML Model → Prediction → Approved/Rejected → Display Result → END

| Problem Statement (PS) | I am (Customer)                        | I'm trying to                                                      | But                                                                                  | Because                                                                                                                 | Which makes me feel                                                                                                 |
|------------------------|----------------------------------------|--------------------------------------------------------------------|--------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------|
| PS-1                   | A customer applying for a credit card. | Obtain a quick, accurate, and fair credit card approval decision.. | The current approval process is slow, manual, and may lead to inconsistent decisions | Banks receive thousands of applications every day, making manual verification time-consuming and prone to human error.. | Frustrated by the delay and uncertain about the outcome, while expecting a faster and transparent approval process. |
