

Communication

Date	4 July 2026
Team ID	SWTID-2026-5594
Project Name	Credit Card Approval Prediction System
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp, Google Meet	All Team Members	Discuss daily tasks, progress, and blockers
2	Progress Update	Weekly	SmartBridge Portal, Google Meet	Team Lead & Members	Review completed work and assign upcoming tasks
3	Issue / Bug Discussion	As Needed	WhatsApp, VS Code Live Share	Team Members	Resolve coding, Flask, and Machine Learning issues
4	Stakeholder Review	Bi-Weekly	SmartBridge Portal, Google Meet	Mentor, Team Lead, Team Members	Review project progress and receive feedback
5	Final Demo Rehearsal	Once	Google Meet	Entire Team	Practice project presentation and application demo
6	Documentation Review	Before Submission	Google Docs, GitHub	Team Members	Verify reports, README, and project documents

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty integrating the Machine Learning model with the Flask web application	Collaboratively debugged the application, verified model loading, and tested prediction functionality.
2	Model prediction issues caused by an imbalanced dataset	Reviewed preprocessing, evaluated the trained models, and selected the best-performing Random Forest model while planning further improvements for class imbalance handling.
3	Coordinating tasks among team members	Assigned responsibilities clearly, held regular progress meetings, and tracked completion through the SmartBridge portal and GitHub.
