

## Initial Project Planning Template

|               |                                        |
|---------------|----------------------------------------|
| Date          | 4,JULY2026                             |
| Team ID       | SWTID-2026-5594                        |
| Project Name  | Credit Card Approval Prediction System |
| Maximum Marks | 5 Marks                                |

### Product Backlog, Sprint Schedule, and Estimation (4 Marks)

Use the below template to create a product backlog and sprint schedule

| Sprint   | Functional Requirement (Epic) | User Story Number | User Story / Task                                                                                                                    | Story Points | Priority | Team Members            | Sprint Start Date | Sprint End Date |
|----------|-------------------------------|-------------------|--------------------------------------------------------------------------------------------------------------------------------------|--------------|----------|-------------------------|-------------------|-----------------|
| Sprint-1 | Project Setup                 | USN-1             | As a developer, I want to set up the project structure and development environment so that the project can be developed efficiently. | 2            | High     | All Team Members        | 04-07-2026        | 06-07-2026      |
| Sprint-1 | Data Collection               | USN-2             | As a developer, I want to collect the application and credit datasets for model training.                                            | 2            | High     | Shalusha, Haripriya     | 04-07-2026        | 07-07-2026      |
| Sprint-2 | Data Preprocessing            | USN-3             | As a developer, I want to clean, encode, and preprocess the dataset before model training.                                           | 3            | High     | Shalusha, Sailaja       | 08-07-2026        | 11-07-2026      |
| Sprint-2 | Model Training                | USN-4             | As a developer, I want to train multiple machine learning models and select the best-performing model.                               | 5            | High     | Shalusha                | 12-07-2026        | 15-07-2026      |
| Sprint-3 | Flask Web Application         | USN-5             | As a user, I want to enter applicant details through a web interface and receive an approval prediction instantly.                   | 5            | High     | Shalusha, Gnana Prasuna | 16-07-2026        | 20-07-2026      |
| Sprint-3 | Dashboard & Result Page       | USN-6             | As a user, I want to view prediction results and project statistics through an interactive dashboard.                                | 3            | Medium   | Haripriya, Sailaja      | 18-07-2026        | 21-07-2026      |
| Sprint-4 | Model Deployment              | USN-7             | As a developer, I want to deploy the trained model using IBM Watson Machine Learning for cloud-based prediction.                     | 3            | Medium   | Shalusha                | 22-07-2026        | 24-07-2026      |
