Project Name	Credit Card Approval Prediction System
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	Visits the credit card approval website and opens the prediction page.	Enters personal, employment, and financial details and submits the application	Views the prediction result (Approved/Rejected) and decides the next step
Touchpoint <i>What part of the service do they interact with?</i>	Home Page and Dashboard	Prediction Form	Result Page
Customer Thought <i>What is the customer thinking?</i>	"Can this system accurately evaluate my eligibility?"	"I hope I entered all the details correctly."	"I want to know whether my application is approved or rejected."
Customer Feeling <i>What is the customer feeling?</i>	Curious and hopeful	Slightly anxious while submitting the details	Happy if approved, disappointed if rejected, but satisfied with the quick result

Process Ownership <i>Who is in the lead on this?</i>	User / Customer	User and Machine Learning Prediction System	Machine Learning System and User
Opportunities <i>How can we improve this stage?</i>	Provide clear instructions and an intuitive interface.	Validate input fields and reduce data entry errors.	Display prediction confidence, explain the result, and provide suggestions to improve eligibility.
